- D. Lamb

Station #5

What is this product?

1. Salmon
- 2. Trout**
3. Sea Bass
4. Steelhead

What is the common habitat for this species in the wild?

- A. Desert Dunes
- B. Tropical Reefs
- C. Freshwater Rivers and Streams**
- D. Saltwater Oceans

Station #6

What is this product?

- 1. Walnut**
2. Peanut
3. Pecan
4. Almond

What is a common disease that affects the growth of varieties?

- A. Walnut Blight**
- B. Fungus
- C. Bacterial Spot
- D. Fusarium Wilt

Station #7

What is this product?

1. Peas
2. Sweet Potatoes
3. Quinoa
- 4. Corn**

What family is this product a part of?

- A. Legumes
- B. Grass Family**
- C. Cole Crops
- D. Goosefoot

Station #8

What is this product?

1. Nectarines
2. Peach
- 3. Plum**
4. Apricots

When is this product in season?

- A. Year Around**
- B. December – January
- C. January – March
- D. June – August

Station #9

What is this product?

1. Yogurt
2. Ice Cream
3. Cottage Cheese
4. Whipped Cream

What is this product a by-product of?

- A. Cattle
- B. Lambs
- C. Goats
- D. Horse

Station #10

What is this product?

1. Pummelo
- 2. Grapefruit**
3. Orange
4. Red Blood Orange

Under what conditions does this product achieve its best quality?

- A. Hot days and cold nights
- B. Warm days and cold nights
- C. Hot days and warm to hot nights**
- D. Cold days and cold nights

Station #11

What is this product?

1. Apple
- 2. Avocado**
3. Lucuma
4. Peach

This product is a good score of which nutrients?

- A. Iron
- B. Magnesium
- C. Potassium**
- D. Phosphorus

Station #12

What is this product?

1. Plum
2. Apple
3. Mango
- 4. Peach**

The type of rootstock selected for this product is influenced by what characteristics?

- A. Tree's growth
- B. Productivity
- C. Longevity
- D. All of the above**

Station #13

What is this product?

1. Bell Pepper
2. Jalapeno Pepper
3. Habanero Pepper
- 4. Serrano Pepper**

When transplanting the plant in which this product is produced, what time of day is it best to transplant?

- A. Morning
- B. Evening**
- C. Afternoon
- D. All the above

Station #14

What is this product?

1. Poblano Pepper
2. Habanero Pepper
3. Serrano Pepper
- 4. Jalapeno Pepper**

What is the best way to store this product after harvest?

- A. Container at room temperature
- B. Outside
- C. Vegetable crisper of the refrigerator**
- D. Container in a dark space

Station #15

- 1. Mint**
- 2. Rosemary
- 3. Oregano
- 4. Basil

This product is used as an organic pesticide for which insects?

- A. Aphid
- B. Thrips
- C. Cutworms
- D. All of the above**

Station #16

What is this product?

1. Sorghum
2. Corn
- 3. Cotton**
4. Sesame

**A common by-product is their seeds,
which a great source of _____ for animals?**

- A. Protein**
- B. Vitamins
- C. Crude Fat
- D. Iron

Station #17

What is this product?

1. Watermelon
- 2. Cantaloupe**
3. Pumpkin
4. Melon

What soil is NOT preferred for this product?

- A. Clay soils**
- B. Loamy soils
- C. Sandy soils
- D. All of the above

Station #18

What is this product?

- 1. Sweet Potato**
2. Purple Potato
3. Potato
4. Squash

**After harvesting this product, what do you
NOT want to do?**

- A. Wash the product**
- B. Remove the adhering soil
- C. Cure them for 14 days in a warm, well-ventilated location
- D. Store them in a cool, dry place

Station #19

What is this product?

1. Chives
2. Onion
- 3. Garlic**
4. Shallots

What is the soil preference to grow this product?

- A. Clay soils
- B. Clay loam soils
- C. Sandy soils
- D. All of the above**

Station #20

What is this product?

1. Shallots
2. Garlic
- 3. Onion**
4. Chives

What season is this product planted in?

- A. Summer
- B. Spring
- C. Fall
- D. Winter**
